May God Bless You Abundantly

Hi there Elliot Odle here, I want to talk with you about Following Through... I want you to be someone who follows through with the things you believe God has given you to do! People invest in knowledge which they feel will help them accomplish the desires of their hearts and it goes to waste! Because they get the knowledge and don't actually do something with it! And as I like to say having knowledge without application, is as much good as having no knowledge at all! Some people start doing something for a bit and then after a while the consistency wears off

Now I'm making mention of this because as you know Faith Boosters is due for release soon, but the one thing which saddens me is people rarely follow through they get products, they go on a course, go to a camp meeting or a campaign and they saturate their minds with good knowledge they get pumped up and excited, but when it comes to actually doing something! To accomplish what they want, very few actually do...

Some people want things and don't do anything, while others do, do things and I don't know which person you are but either way, I want to really give you something that I think will be of great value to you and will help you with Faith Boosters as well as anything else in life you set your heart to! Because to be honest with you, I would rather you don't bother with Faith Boosters, if you aren't going to do anything with it, seriously... Because I want you to actually benefit from the things you invest in! And benefit is only a reward for people who follow through! Hebrews 10:26 says, AFTER you have **DONE** the will of God you might receive the promise!

Now I've literally spent years developing Faith Boosters, studying learning and condensing everything into a neat little package... And the last thing I would want is for you to get access to this and do nothing with it, I sincerely mean it when I say, I actually do care what happens after you get Faith Boosters. I want you to do something with it, I want you to get results and accomplish things, something you can give God the glory for, something that contributes to the advancement of His Kingdom!

If everybody who gets Faith Boosters actually USED it, then we would seriously develop in spiritual exploits for the Lord surprisingly rapidly! So then I guess the real deal here is, working out what actually needs to happen for you **as an individual** to make that dynamic shift in mindset, which will provoke you to take massive action, on what EVERYTHING you learn! And that's what I hope to be able to accomplish by the end of this video! So Right now I pray that God by His Spirit will assist you in your transition to becoming one who follows through! In all things He impresses upon you to do!

As you probably know people have objectives they want to accomplish let's say for example balancing weight, yet they will go and eat a chocolate bar, which they KNOW causes imbalance... Then there are others who will actually follow through with a routine and breakthrough! There is a difference in mindset between those 2 different types of people and what I want to share with you; is what the people who experience breakthroughs actually do!

I've learned a lot by getting into the heads of people who have accomplished amazing things to figure out what exactly that difference is! Some people will have different methods and strategies to share with you, but once you collect all the information dissect it and analyse it, you come to realisation that there are a few common traits all these people have **IN common!** And it is those very things which cause them to breakthrough and experience success! And those things, applied to any objective, get results inevitably!

So the KEY to SPEEDY success: is to find out what people have done to be successful, in the area you want to experience success and MODEL what they have done! Their model is the blueprint you use as a template to build your success on! The advantage of MODELING is you can learn from the people before you, to cut down years worth of trial and error into a few minutes of conversation! You can avoid the ditches in the road they got stuck in, because they have already been down the same road and already know where the ditches are and how to avoid them!

Now as Disciples of Christ we are to Press forward to the goal of **perfection in Christ**. The Apostle Paul kept before him the ideal to be attained, which was to have **consistent willing obedience to God**. He said, "I press toward the mark for the prize of the high calling of God in Christ Jesus." Philipians 3:14

Unfortunately a lot of people only get to experience success because they HAD to! And by that I mean they literally had no other choice. It was either they succeeded or they died, or they'd lose out on something big, which cause absolute turmoil in their lives! So really success in reaching their objective was the only option! Now with that said, YOU don't have to wait until your back is up against the wall before you say, "OK I've had it that's enough, I have got to do something about this!" You CAN just make the decision to follow through right where you are, as things are currently NOW!

You don't have to wait until disaster to make a change! You know why? it's dangerous to wait for a disaster, not just because of what the disaster itself brings! But sometimes for some people the disaster never comes, so they live so comfortably and so cautiously that, they don't venture into anything risky enough for disaster to actually occur and so they are never compelled to feel like they have had enough of something! The venture for nothing and nothing is gained!

So don't wait for disaster before you decide to do something about what you know you should be doing! Get started doing what you know you should! Now the problem people face when they decide to venture out, to do something they've never done before; is they have big dreams and they are so focused on that BIG goal as the ideal, that when they experience a little progress, they don't recognise it as such!

Instead of praising the Lord for it they despise it, as small and insignificant and they think they have failed! And this is where the distinction is between

people who eventually experience BIG success and those who give up too soon! It is simply a difference in the way successful people view, that small progression! They see that as a triumph! While they still have their eye on the BIG objective, most people want to throw in the towel as it were! God in His infinite wisdom of what people are like says to us, "Though thy beginning was small, yet thy latter end should greatly increase." Job 8:7

Celebrate small successes, because it's all about **GAINING MOMENTUM...**

When you experience a little success or make a little progress, instead of being upset that you aren't at the ultimate goal you want to achieve, you celebrate that small achievement because, it is in fact TRULY significant and vital to you actually making it to the BIG goal... (In the Faith Boosters, I'll go into Goal Setting and achieving and break it down step by step into a system you can employ to accomplish virtually ANY objective)

It's amazing what can be achieved in the long term from a difference in how you view your small successes BIG success will inevitably be achieved, once you learn to get excited about small seemingly insignificant triumphs! Because it's something you've never done before! And that little achievement, if viewed the right way, keeps you going because now you're committed to achieving that BIG objective!

You are closer than you were before and now you have valid PROOF, that what you're doing works and that the big thing CAN in fact be achieved, the small triumph you had may not be at the level you want it to be, but you've proven something to yourself! Now it's game over, you've won, because you can do all things through Christ which strengthens you! So with all that in mind, now all you have to do is do the same thing on a higher level, you just have to do more of the small thing you did to achieve the little triumph you had! To have the BIG victory, the major breakthrough!

Basketball Dunk 10ft, I touched the net 4"10, the back board 5"3, tips of my fingers on the rim 5"6 (that's when I was so excited) I wasn't even dunking yet, but I was excited, because I knew, the exercise I was doing was working, then I was able to pull the rim with the tips of my fingers, then one day I actually grabbed the rim and actually hung on it, that was exciting 5"7 imagined it exercise, one summer day, I went ran up with a ball and WHAM slammed it in 5"8 tall! It felt so good! I achieved my goal but I got excited the day I just touched the rim.

Each time I reached a new level it was easy, I kept doing it over and over again! Why because I'd done it once I now knew it was possible! I could do it, like it was nothing!

I followed through I saw results making small progressions, I celebrated each achievement and I kept going, I saw better results kept going, until I got where I wanted!

Now there were some people who like me wanted to accomplish, what I did, but they weren't following through at all they only talked about doing it! And some who started following through got discouraged and gave up And this is

just true in life some people just don't follow through all the way until they get where they want to be and when you get to the bottom of it all! The MAIN reason people don't follow through is FEAR (sometimes it's laziness) But what stops most people is fear!

I've noticed from the people whose heads I've got into, that although they have concerns like everybody else does, what makes them follow through while others don't is 1) they found it far worse, FAR WORSE picturing what life would be like if they didn't follow through! While others are willing to settle for where they are, and just hope that things will change! And this is what I don't want to happen with you, once you have Faith Boosters, get all the info and do nothing with it! People who follow through do so because they either find it more painful to miss out on what they desire to achieve, or they have a real GOOD reason why they must achieve, what they desire!

So when they invest in products they believe will give them the knowledge they need to get where they want to be, they actually follow through, do what it tells them and get the results! **They already had a good enough reason to follow through BEFORE they ever even invested in the product** and this is what I would like you to get establish BEFORE you get FAITH BOOSTERS, decide exactly what it is you want and get a good enough reason, why you MUST achieve what you desire, which will make you follow through and a painful reason why you can't miss out on what you desire!

Because what I don't want for you is to do what most people do... Get excited about the products they invest in and when they get it they don't do anything, then they buy the next product and repeat the same process, they have a huge library of knowledge unapplied! MASSIVE untapped potential! They literally get their buzz buying products! Instead of getting their buzz making progress!

Now even after I accomplished what I wanted, I knew there was more I could do, there were still higher steps to climb! But before I even got there, there were lower stairs I had to climb to get to that point, I was at.

When I wanted to dunk, I knew exactly what I was going after, I knew exactly what I was going to do to make it happen! And I envisioned it, so clear in my mind, until I was so certain, this would happen, I found the necessary knowledge I needed from someone who had achieved what I wanted, I did what they told me and then by God's grace it happened!

You have to know EXACTLY specifically what you want to accomplish. You have to make yourself so certain that it could in fact be done, to the point where you so confident you will succeed, that you struggle to find a reason not to follow through and when the Favour of God attends your earnest, sincere and diligent efforts! Soon enough you'll be doing what used to be dream!

The problem is with most people is they don't have the belief that they can actually do what they want! SO in that case they have to condition their minds

to believe they can. And I have a GREAT little game I'm going to share with you which you can play and have fun doing it, which will condition your mind for success with anything!

We will get to that later, because the first thing you need to do is (**Decide exactly what you want**) The first thing you have to do is decide precisely what you want! To say you just want more, or better or as much as possible, isn't enough! As much as possible doesn't exist. Be specific, because whatever it is no matter how big! Once you know what you want, If you work backwards from the BIG goal, you'll discover there is a plan for it! But you HAVE to start with making the first step of progress first, reaching that first significant goal first.

Virtually nobody in the whole of mankind, hit their BIG goal before they reached the first milestone on the way to it! So success begins starts with the smallest goal of incremental progress! Then the next all the way to the big goal! And I can tell you the 2nd time you attempt to achieve the same goal it happens so much faster! Because the 1st time you had to go through the learning process, the second time, you just know what to do and your mind is already conditioned to perform to that level! It's the norm for you by that point!

So take the Big goal and break it down to the 1st step, what holds people back! IS they just try to hit the BIG goal straight away and if they don't they are disappointed and they feel like a failure and want to give up! What you REALLY have to do, is just show yourself that you can actually make progress! To validate to the brain, that hey what I'm doing is working! Each time you celebrate that small progression and reflect on it, you get the certainty you need, that reaching the Big Goal is not only possible, but now you are certain it WILL in fact happen, if you carry on doing what you did to have the first bit of success! I can tell you the very moment you experience that first bit of success you are 80% of the way to where you want to be, carry on doing more and more of the same process, on a larger scale!

I said earlier that the 2nd time people attempt to achieve the BIG objective, it's so much faster because of the confidence they have that they can perform at a certain level! Well the same works when people lose everything you ever worked to accomplish, and then within record breaking time they have it all back again! Because your mind is conditioned with certainty to succeed. You have to transform what's going on inside of you, to transform what's going on in your world! When you learn how to do that, there is no limit to what you can achieve!

And It's starts with the smallest bit of progress, and that first bit of progress is worth gold and most people don't realise that! You need to focus all your energies on achieving that first significant goal! People don't realise that, they have no idea, of the power surge that goes on in conditioning belief when that 1st little thing happens, For them! Because it compounds exponentially to greater heights! And you can believe that you WILL reach the big goal from day1! Start with the first increment and don't be embarrassed by it, or

disappointed or think that it's not significant enough to celebrate, just because it's not everything you want yet!

~

Progress is the key to confidence! Get yourself on a programme and start making progress! It will give you momentum, and momentum is how you go from step1 all the way to the realisation of your MAIN objective!

MOMENTUM really is the most powerful force, when it comes to accomplishing any objective! It's really like a snow ball, rolling down a hill, you've gotta get it off the edge of the hill which is the hardest part, the rest is easier, that's why I said when you reach the 1st goal of getting the snow ball over the edge, you are 80% of the way to reaching your objective even though you may well be a whole mile away from your goal and to get the ball off edge was only a movement of four feet!

Once it's over that edge, you get excited because you're rolling you get bigger and bigger faster and faster! But that first step is the hardest thing and unfortunately doesn't even happen for most people! Because they are talking about the BIG BOULDER they want and they are just here with a pea sized ball!

But when you just get it started it's almost like everything else takes care of itself! It just compounds and compounds and that's what I hope you'll take away from this! Your big objective whatever it is, is only gonna come to you! When you start with a small objective and get it done! And what you have to understand is that There is no other way around it to get what you want! Other than to start with the smallest increment and getting the process going, and then just letting it grow and multiply!

What excites the achievers who follow through is progress as I mentioned earlier! Now usually the first step is investing in some sort of information to teach you how to do something successfully! So that's good but don't get stuck at repeating step1 over and over again! Waiting until your back is against the wall before you do something, with what you learn! Because as I said that day may never come! So you have to consciously condition your mind to choose to make the decision to follow through as if your back was against the wall, and mastering a skill to succeed is the only option!

I mentioned earlier that you have to find a GOOD reason to follow through! What ticks you off and what excites you is all relative, everybody has different levels which drives them forward! Now sometimes it's unlikely that you will get ticked off enough to want to do something about your situation. So the key is find that reason to: Move forward and at the first sign of success get excited! Because when recognise who you are in Christ, what He has made you and therefore what you are capable of THROUGH Him and all the resources He has made available to you! And you ask Him to install in you a constant desire to progress further than where you are, no matter how far you get! There is no

limit to what is possible! The better you become, the more you can add value to what you can do for the Kingdom!

Now currently where you currently are, you don't have to be able to everything right NOW perfectly, it's all a learning process! And the first thing to do is: acquire a knowledge or skill and make applying it a habit, create an organised routine! And Do 1 thing a day to condition your mind, so that you gain strength and follow through! It might be to read something or listen to something! Just start doing something and once you have a habit of getting into to state, you will constantly follow through!

And remember you need to get clear as to why, your objective is a must for you! Why you wanna master a particular skill? Why did you invest in a particular programme, what do you want it to help you accomplish! How do you want **Faith Boosters** to help you what exactly do you want to get from it? How and WHAT are you going to do, to get what you need to get done DONE! **Faith Boosters** won't do it, it is designed to point out what you should do and your job is to do the doing! Draw up a plan, do one thing a day implementing the things in each module each week! Ask God to make it obvious to you, what you should be doing!

Each week make a little progress and, bare in mind that all effort this is going to get you to the BIG goal whatever that is! And each little success contributes to the bigger objective and I can tell you many of those small success will excite a lot more than the big objective, because you have confidence from the small triumph that you will get experience the BIG one! And when you get that big one, sometimes you're not as excited as you thought you'd be when you were imagining it! And the reason for that is because it became real to you BEFORE you actually ever accomplished it!

And once you've broken through that barrier, it's almost like it just becomes a game what's easy for you seems impossible to others! It's like difficult takes a day and impossible takes a week! But the breakthrough comes by conditioning your mind EVERY day, by feeding it the Word of God or an inspirational story of others who have accomplished similar things, breakthrough comes by putting yourself in a peak stake EVERY day to follow through! Once you have a routine and you experience a little success you get momentum! But the most important thing is what you start out with! WHY? Why is it a MUST for you?

It has to be something you're hungry for because most people aren't hungry and if you aren't hungry, get around people who are hungry for what you want to be hungry for and that hunger will be contagious and affect you! You'll want to do better, than you are, and you won't be satisfied until you have what they do! Your standards for what is acceptable to you change!

Really the 3 things which drive people to FOLLOW THROUGH are, either getting excited about something, getting fed up with something, or getting dissatisfied because somebody does or has something at a better standard than them!

Everyone is different but you have got to find what it is that makes you follow through, look at your past success and think about, what it was that made whatever you accomplished a must for you! And realise that is the type of person you are and you need to get into that state of mind again to follow through!

Find your Why and create a routine of things you will do daily! And take things one step at a time, that's how you get momentum!

SO moving on The Difference between somebody taking action or not is, one thing and one thing only, it's CERTAINTY! The word most people use is believe, but people believe things and aren't CERTAIN, belief doesn't make you follow through, yet CERTAINTY, certainly does! If you're certain that if you do XYZ it's definitely going to get you, a specific result and change your life, YOU'LL DO IT!

So get certain, if you don't you are never gonna follow through with what has called you to do! Now Faith Boosters is built on the Word of God and His Word is certain "God is not a man, that he should lie; neither the son of man, that he should repent: hath he said, and shall he not do it? or hath he spoken, and shall he not make it good?" Numbers23:19

"So shall my word be that goeth forth out of my mouth: it shall not return unto me void, but it shall accomplish that which I please, and it shall prosper in the thing whereto I sent it." Isaiah55:11 He magnifies His Word above His name. Psalm138:2

With God you're not in NO MAN'S land wondering it will work or if it won't! It will work, the only way it won't work, is if you don't work to make yourself qualify for His promise to be fulfilled Period that's it! "...after ye have done the will of God, ye might receive the promise." Hebrews10:36

So if you have an objective and it's a must for you, just know, you are responsible to make it work and when you step out in faith, your victory IS CERTAIN! This is what makes people follow through, confidence and certainty!

Look at this Model, here this is the process which creates momentum and once you have gone round this model once that momentum keeps going getting larger and larger, like the snowball illustration I gave you earlier. **It's a mindset, and this model shows you exactly how that mindset is built and developed!**

Now The first step here is potential, although it is infinite, your belief in your potential, determines whether you can do something or not and if so, how well! According to your faith be it unto you! Your **Potential** is defined by how much you believe, what God has said about you, God is able to do exceeding abundantly above all we can ask or think! But it's according to the power which works in us! Therefore your potential is literally defined by what you

believe is possible for you! Based on what you think they are capable of! For some that might be what others are capable of, but then if you are somebody who is trying to do something nobody has done before, you have to make a mental shift in your head that with God it ANYthing instantly becomes possible! And once your mind goes there and is convinced of that, the result follows! And the funny thing is the 1 thing that everybody thought was impossible everybody starts doing it because one person proved it was possible!

For example before **Roger Bannister** ran a mile in 4 minutes, people thought the human body was physically incapable of doing so! (**Roger Bannister**) rehearsed it in His head, He could never get His body to move that fast! So in his mind He saw it over and over again! Until he got this little sense of certainty, that gave Him that edge. And once he did it a new standard for what was possible was set! Nobody did it before Him... then all of a sudden 24 people ran a mile in 4 minutes within a year! Today kids in high school are doing it, it's not unusual!

The potential you think you have determines the action you will take and on the reverse side of the same coin, the action you take determines the potential you tap into! And the action you take is going to determine the results you get!

Now most people have a belief about what their potential is no matter what anybody tells them! And that affects how much action they take and of course that affects the result and then that result reinforces their belief! And their belief affects their potential! As a man thinketh in His heart so is He!

So for example let's say a believer in Christ, they have unlimited potential, but they take little action and get little results because they have to start with the problem of their belief! They don't believe it's what the Word says is their potential will happen for them! Maybe for their pastor because you know they're the pastor, maybe Jesus because He was like God on earth, maybe the disciples, because they were so driven, but not for them! But they are mistaken because the one thing all of those people had which gave them power was the Holy Spirit! It's "Not by might, nor by power, but by my spirit, saith the LORD of hosts." Zechariah4:6

They had access to the same things you do and so did Jesus **they did everything through the power of the Holy Spirit!** There was nothing more available to them than you have available to you they had access to the exact same resources! And The Spirit, they had has been promised to you! Jesus said, "...the Holy Ghost... the Father WILL send in my name..." John14:26 "...as many as **received** him, to them gave he **power**..." John1:12 "...ye shall **receive power**, after that the Holy Ghost is come upon you:" Acts1:8

So that you could do the same things Jesus did! Jesus said, "Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do" John14:12 "...because as he is, so are we in this world." 1John4:17.

If you still aren't convinced that Jesus had no more advantage over you, let me prove it to you right now, "...For verily he took not on him the nature of angels; but he took on him the seed of Abraham. Wherefore in all things it behoved him to be made like unto his brethren..." Hebrews2:16-17 He had the same access you have, now I'm telling you, your potential in Christ with the power of the Holy Ghost is without limits!

Jesus received His power, When He was, "...baptized, and praying, the heaven was opened, And the Holy Ghost descended in a bodily shape like a dove upon him..." Luke3:21-22 There is no record of Jesus working any miracle prior to Him receiving the Holy Spirit, it was only after...

"**Jesus** being full of the Holy Ghost returned from Jordan, and was led by the Spirit into the **wilderness**... And Jesus returned in the power of the Spirit into Galilee: and there went out a fame of him through all the region round about. ...they were all amazed, and spake among themselves, saying, What a word is this! for with authority and power he commandeth the unclean spirits, and they come out. all they that had any sick with divers diseases brought them unto him; and he laid his hands on every one of them, and healed them." Luke4:1,14,36,40

Jesus did all that with the same access you have to the Holy Spirit's power. And you can harness that power for use in His Kingdom. "...ye shall **receive power**, after that the Holy Ghost is come upon you:" Acts1:8 "...He that believeth on me, the works that I do shall he do also; and greater works than these shall he do" John14:12 "...because as he is, so are we in this world." 1John4:17.

"And these signs shall follow them that believe; In my name shall they cast out devils; they shall speak with new tongues; They shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover. ... And they went forth, and preached every where, the Lord working with them, and confirming the word with signs following. Amen. " Mark16:17-18,20

I'm telling you again, with God all things are possible you literally have no limit to your potential, because you can do ALL things through Christ! We'll get into more of this kind of stuff in detail Faith Boosters... Faith comes by hearing and hearing by the Word of God! Man you've gotta take advantage of this!

~

So I said all that to say this, if you believe there is little potential how much action are you gonna take? Little, and if you take little action, what kind of results do you get? Lousy results and when you get lousy results, what does that do to your belief? It makes you believe your potential is lousy, rather than focusing on arriving where God says He has already placed you! So when you think you're lousy, you diminish your belief in your God given potential and you take less action! You're results are even lousier than before and it's

like a self fulfilling prophecy! This is all about you either feeding your Spirit man or empowering your carnal man!

Keep feeding the spirit man and with this model He gets bigger and “fully persuaded that what God promised He is able also to perform” Romans4:21 the carnal man gets malnourished and dies, Jesus said you should die to self!

If however you feed the carnal man He gets strong! And the spirit man doesn't get to develop strength! You never manifest the fruit of the spirit! “For the flesh lusteth against the **Spirit**, and the **Spirit** against the flesh: and these are contrary the one to the other: so that ye cannot do the **things** that ye **would**.” Galatians5:17

In everything you do, you either feed one or the other! It's like God said, “...I have set before you life and death, blessing and cursing: therefore choose life, that both thou and thy seed may live” Deuteronomy30:19

So it's your choice what actions you take... which WILL get you results, which will reinforce your belief for larger and better things! Now... what if... something could come a long and fill you with a sense of absolute certainty! Where you KNOW, so you won't tolerate living the current way you are! You look for a way to reach your ideal! Maybe Faith Boosters is a start for you and if it is I'm honoured that God has chosen to connect you and I together!

But the point is you have your ideal and you are in a state of certainty that because it was God who said what He said! You are going to have be and do exactly what HE said you can! And you are determined that you are going to find the way! Then you tap a lot more POTENTIAL and when you're certain of your potential you take MASSIVE action! And when you take massive action because you are certain, you get GREAT results and those great results reinforce your belief in the potential God gave you! This is the same process I went through when I started touching the net, then the back board and then the rim and then finally dunking! And at each level I got more and more momentum!

And I believe the same will happen to you with **Faith Boosters** and anything else! Now... some people will just go out and take a whole bunch of action, without the belief it's gonna work, they just go out there with the mentality that they're gonna just try something, rather than say, I'm gonna make this work! And they're not gonna get the result they really want!

The difference with people who experience the results they want is they start by, creating certainty at step one and I'm gonna show you how I do this and how other most people who succeed in reaching their goals do this! Whether people are doing it consciously or unconsciously, the majority of people who succeed do what I'm about to show you in some shape of form or another! I was one of those who started out doing it unconsciously! But now I am conscious of what to do, I do it all the time!

I didn't change my potential because that was already there, and it wasn't even taking more action, because I've found taking action without belief, rarely gets you very far! What happened WAS this, I got results (IN MY HEAD) which made me certain that me reaching my goal was going to happen! And by that I mean, I thought about being able to do what I wanted regularly, not even by routine, but doing it was just fun! It was like a game, It was enjoyable it felt good! Running jumping flying in the air and slamming the ball through the hoop! To be honest I had an obsession with it! And then it happened, but it happened because I knew it would, I had conditioned my mind! To do it! I got results FIRST in my head that, reinforced my belief in my potential! And I did it over and OVER again!

Now studies have proven that people can actually use their minds to affect their performance! They did it once with basketball players! As you may or may not know many of them for some reason mess up shots from the free throw line! And of course if it keeps happening, it messes with your confidence, your belief and your results get worse and worse! So how do you make somebody better, that has this mental block!

What they did in this study is take one group who would just practice taking free throws for 6 weeks, intensely! Everyday! They took the 2nd group and they had them NOT practice at all! Then they took a third group and they didn't let them touch a basketball! All they did was have them practice in their mind!

So this 3rd group were made see themselves making the shot from the free throw line perfectly EVERY single time! Conditioning their mind and body that they get perfect results each time! The key is, it's not practice make perfect, perfect practice makes perfect! They weren't interrupted by the reality that was messing with their beliefs! So at the end of 6 weeks they gave the 3 groups a test! To see how they would fare shooting free throws! And which group was the best!

Well obviously it's not the group that didn't practice and it wasn't the group that were practicing which had the reality of the fact that they couldn't shoot free throws very well reinforced in their beliefs every time they missed! It was those who conditioned their minds FIRST that they could get the result they wanted! With perfect practice every time! They got themselves so certain so many times, that they were conditioned in such away their was no hesitancy and they executed! They had absolute certainty, they tapped into their full potential, they took massive action, they got massive results, which reinforced their belief in their potential and they got even better results! Than before!

And you can do this with anything! You can do it with the mind of Christ and His character, you can imagine somebody Slaps you, and instead of wanting to lash them back, you feel a sense of overwhelming love for them and you want to hug them and forgive them and ask God to forgive them for their wrong against you! Then when it actually happens, you respond with love because your mind is conditioned to do so! Because you've done it so many times! And you get momentum and get better and better, until you surprise

yourself! All things are possible with God! You can do ALL things through Christ which strengthens you! See yourself, and most importantly feel yourself being able to do these things!

Jack Nicholson the golfer did this he would imagine the ball landing where he wanted it to land before he ever actually hit the ball and he did this every time! While everybody else would just hit the ball and hope for the best! But **Nicholson** created certainty in His mind before hitting that ball! And every time those who just hit the ball, hoping for the best, didn't get the ball to go where they wanted! It would reinforce their belief that, that was the result they should expect! They were focusing on what they don't want to do! **Nicholson** expected something different! And he was Champion!

OK so now it's your turn, I want you to do this now, I'm gonna prove it to you in less than 2 minutes and then I want you to imagine, what would happen if you make this your way of life!

Stand up, put your feet together point directly in front of you with your index finger and all I want you to do is, turn clockwise comfortably as far as you normally turn and just notice where your finger is pointing at the place you naturally stop! Keep your feet straight and come back round to where you were pointing in the beginning! Good you can put your hand down

Ok now, close your eyes and you feel or imagine your finger coming back up again and this time see and feel it coming up, don't actually make it happen, but feel like it's happening and imagine in your mind, that you're actually doing it! You're seeing it and feeling it! And then make it like a game where you go twice as far this time, you're like a little child excited about growing taller and they say measure me this week, I'm taller, just imagine yourself going further, and then in your mind do it again! Your feet are straight, see and feel your finger coming up and see and feel imagining you go three times as far this time! And then one more time bring your finger up and you're like an owl, your finger goes all the way round back to the front starting point again!

See it feel it and enjoy it, like it's a game and you can't wait to go further, and you know your finger can go all the way to the front every time! Then when you've done that and it feels good, like something you can do, open your eyes! And now put your finger straight in front of you at the starting point you were at before and turn as far as you can comfortably and see how far you go this time! No notice where your finger stops, now you can turn back around! Did you go further this time yes or no! The average person will go 25% further! I'm sure you went further than when you first did it! And now if you did it again, I bet you could turn just as far as again, because you've now set a new standard you've proven it to yourself!

Now here's the question, did you have the potential to turn as far as you did the 2nd the 1st time round? Of course you did! Well why didn't you! You didn't believe it! Now we have beliefs about so many things! Where we can go further than we think! You had an unconscious belief about how far you could turn comfortably! Here's the difference, the potential was there the 1st time

and you took action! And you got a result! But it was less than what you did the 2nd time!

Now if you didn't just do that exercise and I asked you to do it again! Because you'd still have the same belief, you wouldn't go any further, that's why I didn't waste your time getting you to take more action without first conditioning your mind to that your body could do more! but the moment you changed your belief you went further! I got you to see the results in advance, seeing it vividly 3 times, that's all... of going further than you've EVER been! And then your body was able to execute it successfully!

And You just spent less than 2 minutes doing this exercise! Now what if you spent an hour or every day reconditioning your beliefs in what God says is possible and imagining yourself doing it! For 4 months with **Faith Boosters!** Empowered by God and the harnessed power of His Holy Spirit! I'll let you imagine that! In fact tomorrow we're gonna do this tomorrow! Keep an eye on your email!!! I'll have another video for you!

This is what I did unconsciously when I imagined myself being able to dunk! This is what I do now and this is what most people don't do and don't get! And it's why they don't follow through and experience success when they invest in products! They don't get that execution is everything but it doesn't make a difference if you don't get your psychology set, conditioning your mind into a state of certainty that it can perform whatever it is you want to do! As you just experienced with our little example in 2 minutes with just one of the many brilliant strategies!

So If you're a disciple of Christ then one of your goals is to be like He was in this WORLD! We strive for perfection in Christ being like Him and doing His will! But to do that your mind must be conditioned first and by His Spirit you will be imbued with the power to be just like Him! And it will start with your mind and then you will bear the fruit of His Spirit! First "**Let this mind** be in you, which was also in **Christ** Jesus:" Philippians 2:5

"And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God." Romans 12:2 "This book of the law shall not depart out of thy mouth; but thou shalt meditate therein day and night, that thou mayest observe to do according to all that is written therein: for then thou shalt make thy way prosperous, and then thou shalt have good success." Joshua 1:8

"...thou mayest prosper ...even as thy soul prospereth." 3John 2!

People who invest the time to condition their minds, are at an advantage because this gives people Certainty that they WILL succeed! People who are **uncertain** about succeeding want to succeed but they are afraid they will fail! If you're afraid the best way to deal with it, is to come up with a reason good enough for why you have to succeed or condition yourself to see and feel yourself actually doing what God says you can or being in the dream He has given you so often, that your so certain that you just do it!

You're not thinking about **how** to do it, you're just seeing it so vividly that it's there and you keep doing it! And that really is all there is to conditioning your mind! If you really want to succeed you've gotta know, it doesn't just happen! You can invest in Faith Boosters but you also have to condition your mind! You've got to get a **MUST** and you've **GOT TO GET** a **ROUTINE**... And when you do that, whatever it is you used to dream about, that you thought was so huge, you'll live it!

Because you've decided **YOU HAVE TO!** & You played this game with your mind, you got the belief to be real by seeing it enough times and feeling it enough times, until your brain believed it, you took massive action and God made it happen! That's what successful people do!

Most people, do the opposite of that, they get a product and they think about doing it and what do they envision? It **NOT** working! **AS** soon as they do that, they feel uncertain and therefore their belief in their potential is diminished and so they send back the product they got and they didn't even finish going through it, and they damage themselves, because they didn't follow through, and not following through is a result! And they have a habit of not even following through on any product they invest in!

Then they become sceptical that nothing works and that anything which does work will have to prove itself to them, without them actually having to apply it! And if they do invest in something they already go in with the wrong attitude, and they think this thing has to prove to me that it has any potential at all, before I believe it does! Even with The **HOLY** Word of God!

Because of the way they think about things they become over cautious and far too defensive and to stop themselves being disappointed, they lower their expectations of everything! They say they're sceptical but really the truth is they are gutless, they are the ones Jesus would say "oh ye of little faith" to!

Let me just say it takes no guts to be sceptical, you don't have to have any capacity to be sceptical whatsoever, but you know what it takes Gut to believe and openly have high expectations about what's possible! If you think anything significant is going to happen for you, without you putting your faith on the line, you may as well forget it right now! So the idea of being sceptical thinking I want things proven to me before I do anything, is really self harming, they're lying to themselves, that's fear talking, they're so scared of failing, they don't even want to get their hopes up! If you don't even wanna get your hopes up, what chance do you have?

~

Most People are scared to get their hopes up for fear of disappointment, "what if it doesn't work?" So what! You had a set back, get up and keep going, it's rare somebody experiences their ultimate success, without one single challenge or set back! We all get them and it's good for you, it builds strength and character! Don't be such a wimp! **MOST** people get disappointed and let

it destroy them and their dreams and they never want to get up and experience that again!

The difference with successful people is they take disappointment and let it DRIVE them! And the great thing is we all get to choose which type of person WE are! Don't be most people! Who get disappointment and come up with a bunch of excuses for why things never work for them, and worse they find reasons why it's not their fault, that they aren't where they want to be! They want a result, but they just have excuses and a story for why they don't have what they want! Do what successful people do, take what didn't work to God, pray and ask Him to help you figure out what you can do to MAKE IT WORK!

If you experience opposition in something you know God has called you to do, or you know there is opposition you are bound to face have the attitude of the apostle Paul, "And now, behold, I go bound in the spirit unto Jerusalem, not knowing the things that shall befall me there: Save that the Holy Ghost witnesseth in every city, saying that bonds and afflictions abide me. But none of these things move me, neither count I my life dear unto myself, so that I might finish my course with joy, and the ministry, which I have received of the Lord Jesus, to testify the gospel of the grace of God." Acts 20:22-24

People who are relentless find the way by will power and unwavering determination! Because each time there is a set back they keep figuring things out, until they arrive where they dreamed of being in! And when they thought 1 thing was the ultimate for them, they discover that it's nothing and can go even further! Successful people have results and a story which turns out to be a blueprint!

Most people actually think they aren't entitled to succeed with things! All that is, is a belief programmed in their way of thinking, which can be changed with conditioning! As I've proved to you with our little exercise! That's why I was impressed to make FAITH BOOSTERS because I understand that This process is the blueprint to success with everything, anybody can do it, and if anybody does it for just a few minutes each day, then they get a different life! If they do it 1 time, their life changes for the day!

The quality of our lives is literally defined by our routines, the things we do everyday! And everybody I know who has succeed with anything saw it in their mind first, over and over again, even when they had set backs, they would not give up! Because they just knew, they would have what they imagined! When the people were building the tower of Babel, look what God said in Genesis 11:6, "...this they begin to do: and now nothing will be restrained from them, which they have **imagined** to do."

You have to decide what YOU won't give up on, and get yourself into momentum by establishing a routine! Your routine gives you momentum and your in peak state to succeed!

Your life can be transformed in a moment from the very moment you DECIDED, you said I will take this no more, you give yourself a kick into gear,

and you make yourself do something! And in that case you are successful from that moment! You don't have to wait until you've mastered everything to start calling yourself, what you've yet to become! God calls things that be not as though they were, God sent an Angel to speak to Gideon who thought He was the least of the least, But God called Him a might man of valour! Right there and then, where He was!

What about Abraham God called Him Father of many nations centuries before that dream was ever realised, when his wife was barren! My point is you don't have to experience, your dream before you believe it can be realised! Nobody has to prove it to you before, you can accept it as yours! God gave Abraham a picture, of how numerous His descendants would be! God used the same strategy with Abraham as I shared with you! He said I want you to look at the stars at night and the grains of sand and imagine that's how numerous the people will be who descend from you! He transformed His conditioning, with that image!

We know what he was like at first with His old conditioning, He took His wives maid servant and tried to make it work with her! But after His mind was transformed look what Romans 4:17-21 God said, "(As it is written, I have made thee a father of many nations,) before him (Abraham) whom he believed, even God, who quickeneth the dead, and calleth those things which be not as though they were.

Who against hope believed in hope, that he might become the father of many nations, according to that which was spoken, So shall thy seed be. And being not weak in faith, he considered not his own body now dead, when he was about an hundred years old, neither yet the deadness of Sarah's womb: He staggered not at the promise of God through unbelief; but was strong in faith, giving glory to God; And being fully persuaded that, what he had promised, he was able also to perform!"

You thought I was making this stuff up, my friend I won't share with you anything, I can't prove to you with the Word of the Living God who watches over His Word and hastens to perform it!

OKAY I'm Gonna Start Wrapping Up Here... Let's just RECAP the main 7 points quickly:

#1 Decide **EXACTLY** what it is you want...

#2 Get a **BRILLIANT** reason, why you **MUST** achieve what you desire which will make you follow through... You **HAVE** to find what it is that makes you follow through, look at your past success and think about, what it was that made whatever you accomplished a must for you!

#3 Get a **PAINFUL** reason, why you can't miss out on what you desire! You have to decide what **YOU** won't give up on

#4 Model Success... (Find what other people did to get what you want to get and mimic them)

#5 If you're afraid the best way to deal with it, is to come up with a reason good enough for why you have to succeed or condition yourself to see and feel yourself actually doing what God says you can so often, that your so certain that you just do it!

Condition your mind FIRST to be confident you CAN get the result you want! GET CERTAIN, by getting RESULTS in your head! Visualise what you want perfectly, perfect practice makes perfect! And that really is all there is to conditioning your mind!

#6 Seek to acquire the appropriate skills, you learnt from the blueprints of the people you are modelling your success after... and **make applying it a habit**, create an *organised daily* routine! Do 1 thing a day to condition your mind, so that you gain consistency with follow through

#7 REMEMBER that although your beginning may be small, your latter end shall GREATLY increase... When you are faithful in the least you will be made ruler of MUCH... It's a process, So take things one step at a time, celebrate each success and see it as significant, your confidence will grow and your belief in your potential will increase, as action is implemented on a larger scale, better results are attained, the cycle keeps repeating itself... Your progress will increase in size and speed, until you are the BIG Boulder you always dreamed you would be! **Keep the snowball illustration in mind!**

Bare in mind that all efforts, disappointments, setbacks, triumphs BIG and small, all contribute towards getting you towards your BIG goal whatever it is!

You can invest in Faith Boosters but to get RESULTS with it, you also have to **1st** know EXACTLY what you want **2nd** Get a good reason you MUST get what you want... **You NEED to 3rd** Condition your mind! And **4th** GET an organised ROUTINE, where you daily do something towards the accomplishment of your objective...

Work on these 4 this is your home work! You've gotta do this if you want to succeed this is your ticket!

So you've just gotta **get started** with this process and just put yourself in a state where you start making progress! God has placed something inside of you, that will make sure today is not like yesterday and tomorrow will be different forever and that process is an emotional hook! And so I'm sincerely praying that God unleashes that desire within you! God promised in Psalm37:4 that when you delight yourself in Him, he shall give you the desires of your heart! And when you get a big enough WHY, and develop a system for conditioning myself and if you get overwhelmed, then do 1 next step and you keep believing, keep learning and keep moving forward you will get there!

If you truly get that, then I'm honoured this HAS been a blessing to you! Whether you succeed or not really has little to do with me, it depends on whether or not, you take The Word of God as real and do something with it and I pray you will! That's the one thing I can't control!

Sometimes when sharing profound information with people, I can almost hear them saying in their mind! "Yeah I already know this stuff!!!" But their lives haven't been transformed so although they "Already know this stuff" (This stuff) whatever it is obviously hasn't been applied! People always say, "yeah I already know this" But seldom do they say, "yeah I already applied this stuff" People assume that because they know something, it entitles them to the results they want!

So if you know this stuff and haven't followed through, your problem isn't that you don't know the right stuff! People assume that there is something successful people know that nobody else does! The only difference with successful people is that they DO what nobody else does which they know they should be doing! IT has little to do with secret knowledge nobody knows about! People who haven't experienced success who already know this stuff, are missing what really makes this all work!

Success is 80% psychological and 20% mechanical, you see if you know the right things to do and you have the right conditioning, BUT you haven't figured out the big reason why, you **MUST have** what you want rather than just desiring it! And you don't understand that success is 80% Psychological having the right system inside you and 20% actually implementing the stuff you know how to do, then you can know all the stuff and it's gonna be worthless!

So Here's what I've done, in Faith Boosters I've outlined the 80% mindset etc, along with the mechanics you need to do! And the 20% is up to you, to follow through! And those who do experience success and let me know will let see their story on Testimonies Galore!

www.GodAnswersYes.com/TestimoniesGalore.html Giving Glory to God for His goodness! So I'm giving you the system to success in the Kingdom, where I outline exactly how to have the Promises of God come off the page of your bible to being your experience in life and I'm giving you the psychology, you need to! The stuff that teaches you not only what you need, to know what to do correctly but also the stuff that will get you to actually DO what you know and follow through and GET to experience, supernatural intervention in your life! Did I hear an Amen? Hallelujah

So many people are frustrated with things, not being how they would like them and I'm confident Faith Boosters will help you resolve that! I can honestly say I know what it feels like to just rest assured confidently that God will take care of everything and I see His divine hand of providence, surprise me with blessings frequently left right and centre like a barrage of punches! Living by Faith Truly is awesome and I would love for you to know what that's like! To see scripture fulfilled in your life where you can read something and see it

actually happens in your life! It's truly a wonderful feeling, which you've gotta to experience for yourself! So I'm looking forward to you joining me on this expedition!

Now once you have Faith Boosters you will be able to download the audio version of this presentation, along with the transcripts which contains all the scriptures, I used! It saves you from having to keep coming back to this page to hear this message!

Look out for my email tomorrow and as promised I'll take you into a little more depth into the strategy of conditioning your mind! I'll email it to you tomorrow! Stay tuned!
